

Sales, Rental, & Services

It's TRUE!

For the first time ever, California State University, Los Angeles was able to reach the 3-percent DVBE requirement in 2006!

GENI can help your company do the same, as we are a DVBE company that wants you to meet your goals!

GENI's comprehensive services include sales, rentals, and repair of electric boards such as PCMS boards and arrow boards.

We have helped hundreds of customers in the environmental, commercial, and construction industry save time and money with the wide array of products we offer.

Global Environmental Network, Inc. is proud to partner with Grainger Industrial Supplies to expand our inventory through the Grainger Distributor Alliance Network Program. Grainger's MRO Contract 1S-06-79-55 has been competitively bid and eliminates the need to obtain additional quotes.

Global Environmental Network, Inc.
